§ 223.238 Free use authorization to U.S. Army and Navy.

Subject to delegations of authority by the Chief, Regional Foresters may approve the harvest of special forest products by the U.S. Army and Navy for the purposes identified at 16 U.S.C. 492.

§ 223.239 Free use by individuals.

(a) *Free use.* A person may harvest a special forest product from National Forest System lands free of charge for personal, non-commercial use up to the amount or quantity authorized by a designated Forest Service officer, a Forest Supervisor, or a Regional Forester, as delegated at 36 CFR 223.8.

(b) *Free use without a permit up to the incidental use harvest level.* No permit is required for the free use of a special forest product at or below that product's incidental-use harvest level, which shall be determined at the discretion of the regional forester or a subordinate officer. The incidental use harvest level covers small amounts of special forest products, such as cones, mushrooms, berries, acorns, black walnuts, or medicinal roots. Any free use of a special forest product that does not have an incidental-use harvest level is subject to this section's permit requirements.

(c) *Free-use permit requirement.* No person seeking free use of a special forest product, except one identified in § 223.239(e), may harvest a special forest product above the product's incidental-use harvest level without submitting an application to a forest officer and obtaining a free-use permit, unless the permit requirement has been waived for a specific special forest product in a designated free-use area.

(d) *Contents of the permit.* The permit shall indicate the type, amount, and/or value of the product to be harvested, the permit's duration, and shall contain other restrictions and requirements as appropriate.

(e) *Free use without a permit for members of Tribes with treaty or other reserved rights related to special forest products.* A member of a Tribe with treaty or other reserved rights related to special forest products retains his/her ability to harvest such products in full accordance with existing rights, including free-use harvest without obtaining a free-use permit, as specified in treaty or other reserved rights.

(f) *Free use without a permit upon the request of the governing body of a Tribe.* At the Agency's discretion, responsible forest officers may, upon the request of an authorized representative of the governing body of a Tribe, issue a permit that would not otherwise be required under paragraph (e) of this section to a Tribe with treaty or other reserved rights related to special forest products for the free use of a specified quantity of special forest products. That Tribe may then allocate specified quantities of the special forest product(s) to individual Tribal members, up to the maximum amount specified in the Tribal free-use permit. Any Tribe issued such a permit must provide the Forest Service with information related to the permitted harvest, upon request.

(g) *Free-use restrictions.* A Forest Officer may set conditions on the free-use harvest of a special forest product or deny the free use of a special forest product. Reasons for denying free-use access or setting conditions on free use, except as specified in § 223.240, may include, but are not limited to:

- (1) Ensuring public safety;
- (2) Preventing interference with Forest Service and/or commercial operations;
- (3) Ensuring the sustainability of a special forest product; or
- (4) Otherwise protecting National Forest System land.

(h) *Unilateral termination of a free-use permit.* The responsible forest officer, or any superior officer, may terminate a free use permit without compensation at any time for reasons including, but not limited to, resource protection, weather factors, fire season, road access, conflicts with other users, or permit violations.

§ 223.240

(i) *Subsistence in Alaska.* This section does not affect subsistence uses implemented under Title VIII of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101–3126).

§ 223.240 Tribes and treaty and other reserved rights.

Tribes with treaty or other reserved rights related to special forest products retain their ability to harvest special forest products in full accordance with existing rights. However, consistent with all applicable rights, Regional Foresters may set conditions on Tribes with treaty or other reserved rights related to special forest products to protect the sustainability of special forest products or to otherwise protect National Forest System land. Regional Foresters may only prohibit Tribes with treaty or other reserved rights related to special forest products from harvesting a special forest product to protect public health and safety or to ensure sustainable harvest levels. Regional Foresters will provide a Tribe with treaty or other reserved rights related to special forest products that is prohibited from harvesting a special forest product with written documentation supporting the decision.

§ 223.241 Disposal of seized special forest products.

The Forest Service may dispose of seized special forest products that have been illegally obtained from National Forest System lands by sale or free use. Any sale of such products shall be conducted in accordance with the requirements of this subpart; however, no seized special forest products shall be sold to the person who collected them illegally. The Forest Service shall not dispose of a seized product by sale or free use if that product is:

- (a) Listed or proposed for listing as threatened or endangered under the Endangered Species Act;
- (b) Identified as prohibited for sale or trade under the Convention on International Trade in Endangered Species; or
- (c) Listed on the Regional Forester's sensitive plant list, species of concern list, or species of interest list.

Existing Memorandums of Agreement and Memorandums of Understanding related to forest products must be made consistent with subparts G and H within 24 months from December 29, 2008 or those agreements will terminate.
